SPECIFICATION & RETAIL PRICE LIST 2023

ISSUE 9

STORAGEWALL SYSTEMS

StorageWall brings entirely new dimensions and innovative solutions to any storage problem. The OfficeLife StorageWall range offers a variety of standard storage options with nine standard colours to choose from. The range covers every solution you will need to enhance your storage efficiency and functionality.

The OfficeLife StorageWall system is carefully planned to fit perfectly in your environment offering a complete wall-to-wall, ceiling-to-ceiling installation. This maximises your storage capacity and the fitted solution will also add the professional look to any office.

We offer a complete start to finish service, which means your office will get a StorageWall system that will make full use of the available space and suit the needs of your staff. Our standard service offers on site planning, CAD approval drawings and installation by our own CSCS and DBS registered installation team.

Our **MADE TO MEASURE, MADE TO FIT** service allows us to design and manufacture special size cupboards that may be needed to maximise your storage capacity. The system also allows standard StorageWall cupboards to be modified to allow access to wall mounted electrical trunking and electrical sockets by using split back panels.

STORAGEWALL

Specifications

Concept

The system is a fully demountable and re-locatable storage system, the inbuilt height adjustment allows relocation to different floors or buildings.

Flexible

Structural side panels of 18mm thick MFC drilled at 32mm centres on a vertical grid designed to accept hinges, back panels and internal fittings. Each side panel is fitted with two heavy duty height adjusters with 35mm height adjustment.

Solid Back

18mm back panel is clipped and security screwed to the side panels. The back panel together with the structural shelf provide rigidity and facilitates fast construction times.

Doors

18mm thick MFC panels with 2mm PVC edging. Attractive handle and espagnollette locking provides aesthetics that match Office Life Solutions attention to quality.

Height

All storage wall cupboards are designed to a height range of 714mm to 2700mm.

All storage wall cupboards are designed to accept a top box cupboard which enables an overall height of up to 3500mm.

Decorative End Panels

A variety of decorative end panels and vertical scribe panels are available.

Ironmongery

Hinges are nickel plated castings, exposed knuckle style 180 degree opening and built in positive close facility. Knobs and handles are matt brushed nickel finish with integral removable barrel lock cylinder. All doors are lockable and are supplied with two keys, the keys are hinged to prevent accidental damage to key or unit. Master keys are available at an additional cost. Locks can also be 'keyed alike' for a surcharge.

Internal Fittings

A range of steel fittings to suit either 800mm or 1000mm width bays include standard combination shelves, lateral filing frames and roll out filing frames with anti-tilt mechanism.

A range of 25mm thick MFC shelving available in every bay width. 21 slot pigeon hole units and heavy duty storage drawers are constructed from 18mm MFC.

Features

Glass display cabinets are available in the following sizes:

800mm wide x 985mm high = two glass shelves as standard
 1000mm wide x 985mm high = two glass shelves as standard

All glass doors and shelves are fitted with toughened glass. Integral LED lighting via two flush fitting down lighters powered by a single transformer, which is wired to a 2000mm long cable complete with a standard 5 amp plug.

Modules

Standard depth	Overall 487mm deep
Standard widths	500mm/800mm/1000mm/1200mm <i>All 1200mm wide cupboards are standard with a central divider</i>
Maximum height	2700mm <i>(unless otherwise specified)</i>
Maximum height with top box	3500mm

Maximum Loads

MFC Shelf	40kg
Metal Shelf	50kg
Lateral Filing Frame	40kg
Roll Out Filing Frame	50kg
Heavy Duty Drawer	40kg
